

# My WealthPartner Online

## Core fund list

Included within the wide range of investments available through My WealthPartner Online is a carefully selected core fund list that has been designed specifically for PwC Partners, former Partners and their families. The list is made up of a selection of cost-effective active and passive funds, covering the main asset classes and markets, including equities, bonds and money market instruments.

Where possible the list replicates what is available through the PwC Partner SIPP with Standard Life. This is intended to help Partners who wish to maintain a consistent approach between their pension and other investments. For the funds that we are unable to directly replicate, highlighted below, we have offered one or two alternative funds which invest in similar regions or sectors.

The inclusion of any funds in this list must not be considered as advice or a recommendation, or that they would be our preferred investment option for a region or sector. Funds included in this list may not be suitable for your personal circumstances. You are responsible for any investment decisions you make through My WealthPartner Online. If you are unsure of which investments are most suited to your needs then the My WealthPartner Advice Service can help.

Please be aware that the value of an investment can fall as well as rise and you could get back less than you invest.
